

E2I

SOLUTIONS

EXTERIOR TO INTERIOR
we have your project covered

**Expertise in lighting solutions for
builders and developers throughout Texas.**

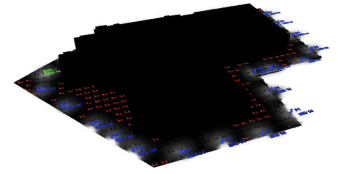

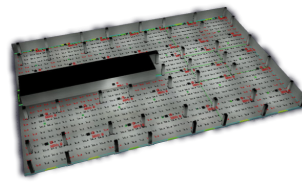

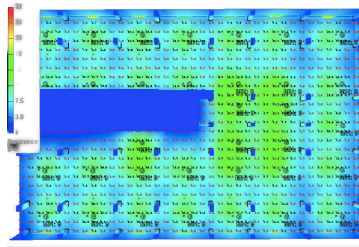

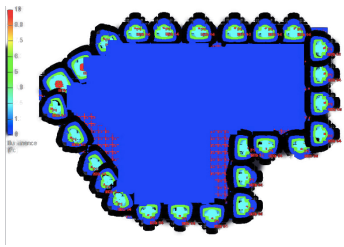

**LIGHTING
SOLUTIONS**

www.e2iTX.com

E2I is a full-service provider for your lighting solutions, with expertise in design, sourcing, fulfillment and more. We will maximize the cost effectiveness and performance of an existing plan – or partner with your team to develop a custom design.

Design and Specification Assistance with Photometric Layouts

DESIGN

In-house resources that facilitate/assist with complete design and specification (photometric layouts, automation controls and more)

Cost-conscious product selection with preservation of design intent

Specification of fixtures to meet or exceed required performance

Experience with a wide range of complex projects

SOURCING

Full spectrum of complete lighting packages: specification grade, custom fixtures and lighting control automation

Established direct partnerships with major manufacturers

Strong national/regional network of wholesalers and importers

Broad international connections with new manufacturing resources

E2I relationships are leveraged for maximizing value to our customers

FULFILLMENT

Professional project management providing custom solutions to outperform traditional supply chains and methods

Flexible infrastructure = fast response to constant changes

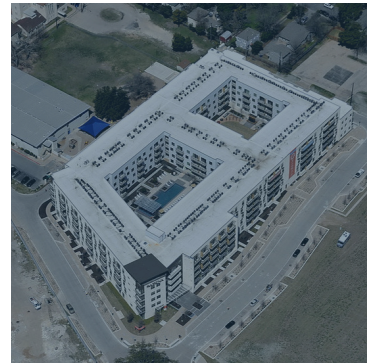

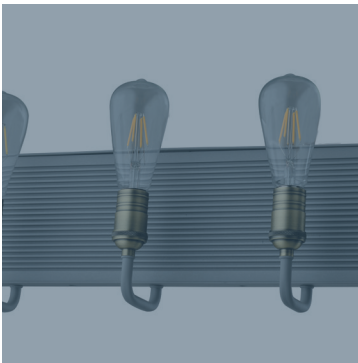

Vast network of freight forwarders/typical 48-hour standard delivery

Insurance/replacement coverage to protect your investment

50,000 sq. ft. warehouse facility in DFW Metroplex

Expand Your Project Team

With in-house construction and design experience, combined with our vast resources for product procurement, E2I brings unique viewpoints and solutions to the project team. After vetting fixture performance and requirements, we tailor the final lighting package to meet specific objectives, increase savings, and deliver greater value to the customer.
